ABOUT ME

Full-Stack Developer with practical experience building modern web applications across the entire development stack. Skilled in frontend development, backend architecture, RESTful APIs, database design, and application deployment. Passionate about creating scalable, maintainable, and production-ready software while collaborating effectively in remote development teams. Familiar with cloud platforms, including Microsoft Azure and Google Cloud Platform.

WORK EXPERIENCE

🏢 *OtaTickets.com* – Kabul, Afghanistan

Full Stack Developer

[01/08/2026 – Current]

- Working as a Full-Stack Developer at OtaTickets.com, contributing to the development of a complete ticket reservation and booking platform.
- Developing the platform's frontend using React, Next.js, Tailwind CSS, and React Query, building responsive interfaces for flight search, reservation, and booking workflows.
- Building backend services and APIs using NestJS, Express.js, MySQL/SQL, gRPC, and RabbitMQ to support scalable ticketing and reservation operations.
- Developing and integrating APIs that connect the platform with external airline and travel providers, enabling real-time access to flight schedules, availability, pricing, and booking data.
- Integrating real-time provider data from airlines and travel partners, including Kam Air, Ariana Afghan Airlines, and Turkish Airlines, to provide users with up-to-date flight options and enable seamless ticket reservations.

🏢 *Sunzala Marketplace* – Kabul, Afghanistan

Founder & Developer

[01/06/2026 – Current]

- Founded and independently developing a marketplace for digital and physical products.
- Designing and developing the platform using **Next.js, React, TypeScript, NestJS, and PostgreSQL**.
- Building scalable backend services and **RESTful APIs** with NestJS, including authentication, authorization, product management, orders, and user-related functionality.
- Designing relational database schemas and implementing **SQL queries, relationships, indexing, transactions, and data integrity** with PostgreSQL.
- Developing frontend interfaces with Next.js and React while integrating them with backend APIs and services.
- Managing application architecture, deployment, infrastructure, and ongoing product development from concept to production.

🏢 *Profitwave360 LLC*

Software Engineer

[01/05/2026 – 31/07/2026]

- Developed and maintained the Profitwave360 website, implementing new features and improving overall functionality and user experience.
- Improved website performance, technical SEO, and page structure to support better search engine visibility and organic traffic.
- Built and optimized service pages, calculators, and content-focused sections while applying SEO best practices for better indexing and user engagement.

 **blissio.ai** – Kabul - Remote

Full-Stack Developer

[01/09/2024 – 01/06/2026]

- Led the backend development of **blissio.ai**, designing and building scalable production APIs and backend services using **NestJS, TypeScript, PostgreSQL, and Prisma**.
- Designed database schemas, optimized SQL queries, and implemented secure, high-performance REST APIs for the core platform.
- Managed application and API deployments across **Azure, Google Cloud Platform (GCP), and DigitalOcean** using **Docker**.
- Integrated AI-powered services and external APIs to support intelligent application features.
- Contributed to the **React Native** mobile application by implementing new features, fixing bugs, and improving performance.
- Collaborated with cross-functional teams to deliver scalable, reliable, and maintainable software solutions.

 **AseelApp** – Kabul - Remote, Afghanistan

Full-Stack Developer

[21/12/2023 – 31/08/2024]

- Contributed to the development of **AseelApp** across the **backend, web frontend, and mobile application**.
- Developed and maintained backend services using **Node.js, Express.js, Medusa.js, and PostgreSQL**, building scalable APIs and business logic.
- Built and enhanced responsive web applications using **React, Next.js, and TypeScript**.
- Developed and maintained features for the **React Native** mobile application, ensuring a consistent user experience across platforms.
- Collaborated with cross-functional teams to deliver new features, resolve production issues, improve application performance and maintainability.

 **MCCO Afghanistan** – Kabul, Afghanistan

Full-Stack Developer

[01/02/2023 – 21/12/2023]

- Built and launched **MCCO's official website** from the ground up as the sole **Full-Stack Developer**.
- Designed and implemented the full-stack architecture using **Next.js, TypeScript, Tailwind CSS, and MongoDB**.
- Developed responsive, accessible, and SEO-friendly user interfaces with a focus on performance and user experience.
- Built RESTful APIs and integrated MongoDB to manage dynamic application data efficiently.
- Managed the complete deployment process, production environment configuration, and post-deployment maintenance.
- Optimized application performance, maintainability, and scalability by following modern web development best practices.

 **Dursa** – Kabul, Afghanistan

Web developer

[01/07/2022 – 31/01/2023]

- Developed and maintained the Dursa website using Next.js, React, and Tailwind CSS.
- Built responsive, user-friendly, and accessible web interfaces.
- Implemented new features and enhanced existing functionality based on project requirements.
- Optimized website performance and improved page load speed.
- Collaborated with the team to deliver high-quality, maintainable code.

EDUCATION AND TRAINING

Bachelor of Computer Science

Rana University [01/03/2020 – 01/09/2024]

Address: Kabul, Baraki Square, Rana University, Kabul (Afghanistan) | Website: ru.edu.af | Level in EQF: EQF level 6

Completed a **Bachelor of Computer Science (BCS)** from **Rana University** in **2024**, graduating with **83%** (estimated **GPA: 3.32/4.0**).
